ABOUT TAAE SAS

PRESIDENT'S MESSAGE

“

NGOY KALUMBA Trudon
President of TAAE SAS

Faithful to its values and commitments, our consulting firm TAAE SAS places particular emphasis on mastering its organizational efficiency and builds its strategic development on three major pillars:

To satisfy and retain its clients in order to become a partner of choice;

To ensure the fulfillment and efficiency of its human capital;

To become a benchmark firm both nationally and internationally.

This strategic orientation is designed to strengthen the company's brand equity and ensure its competitiveness and sustainability in an increasingly competitive and globalized environment.

Our clients are at the heart of our concerns and we constantly take into account their feedback, comments, and expectations in order to adapt and continuously improve our organization.

We have therefore, implemented a series of necessary actions to ensure our clients' lasting satisfaction in terms of meeting deadlines and delivering quality services in full compliance with contractual, normative, legal and regulatory requirements while remaining attentive, available, and responsive.

02 ABOUT US

TAAE SAS is a Congolese law company established in 2021 working in partnership with both the public and private sectors as well as several Decentralized Territorial Entities, including provincial administrations. With its corporate purpose entirely focused on business development in the Democratic Republic of Congo aiming at income and job creation , TAAE SAS operates across eight key areas:

Consultance

Taxation

Maintenance

Customs Agency Services

Human ressources management

Transporation

Supply of goods and services

Facilitation

TAAE SAS, registered under RCCM: CD/LSHI/RCCM/-21B-01312, National ID: 05H5300N92745Z, NIF: A2179209W, has its headquarters in Lubumbashi with branches in Kinshasa and Kolwezi. The company boasts a highly skilled workforce with strong teamwork abilities and above all, a proven capacity to meet client's expectations across the various sectors in which it operates.

03 FIELDS OF OPERATION

The team at TAAE SAS is made up of seasoned professionals who are able to design and to manage major projects in mining, construction, taxation, transportation, energy and customs. We have the expertise needed to attract investors and help channel capital into businesses across a wide range of industries.

We also support our partners in securing contracts for the supply of goods and services. Beyond being a multidisciplinary and specialized team, TAAE SAS draws on the practical experience of its staff (including engineers, managers, and technicians) who have improved their skills through hands-on experience in various roles throughout their careers.

By understanding the unique needs of each client and working within our eight core areas of focus, TAAE SAS delivers its services in a way that is tailored, effective, and results-driven.

1 CONSULTING

Leveraging our team's strong capabilities in client listening, analysis and comprehension, we provide partners with strategic guidance to ensure optimal operational decisions aligned with their specific requirements. We deliver high-level consulting services across accounting, engineering and other specialized domains.

2

HUMAN RESSOURCES MANAGEMENT

We provide our clients with recruitment services for qualified personnel and also offer both initial and continuous professional training.

We support our partners in effectively managing their workforce. In this context, we are ready to offer the following range of services:

- Permanent Placement:** We identify and recruit candidates for technical or specialized positions on a long, medium, or short-term basis within your organization.
- Temporary/Contract Placement:** We quickly supply qualified personnel for short or medium-term assignments to address peak demands or specific projects.
- Specialized Placement:** We have the expertise to recruit for specific sectors, identifying rare and highly sought-after profiles.

3

TAXATION

We provide comprehensive support to businesses of all types in fulfilling their fiscal obligations, from tax and duty declarations to payments and settlements. In compliance with Finance Law regulations, TAAE SAS supports Decentralized Territorial Entities (D.T.E.s) by developing public finance management rules, practical mechanisms, and guidance on budgetary policy implementation.

Within this framework, TAAE SAS collaborates with the communes of Kampemba, Ruashi, and Annexe. Our objective is to help the Congolese State optimize the innovations introduced by Law No. 11/011 of July 2011,13, on Public Finances ; particularly to facilitate the development of the State's budget consolidation law, with specific reference to Articles 223 and 227.

Tax filing: preparation and submission of tax returns, duties, and contributions to the relevant authorities.

Data collection and analysis: enabling better traceability and effective tax planning.

Tax payment management: ensuring compliance with legal deadlines and optimizing payment procedures.

Tax audit assistance: preparing documentation, representing clients, and defending their interests during tax audits.

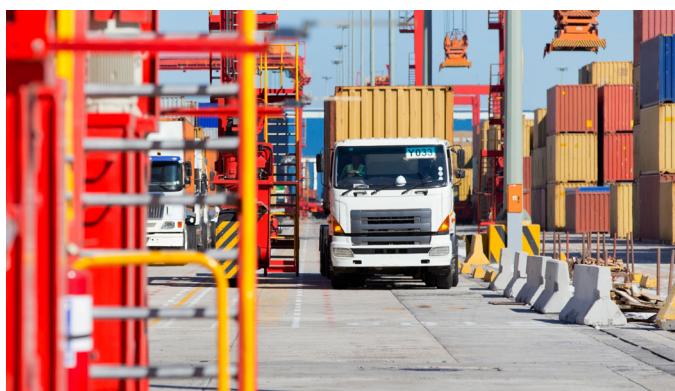

Tax clearance: regularizing outstanding liabilities and updating clients' fiscal situations to ensure full compliance.

Strategic advisory services: anticipating regulatory changes and optimizing tax burdens in full accordance with applicable laws.

4 TRANSPORTATION

Our company specializes in transportation and integrated logistics within the mining, oil and industrial sectors. We provide reliable, secure and customized solutions tailored to the operational requirements of our partners , covering both product transportation and personnel mobility. Our activities encompass several key areas:

- **Transport of mining products :** Transport of mining products: strict compliance with safety and traceability standards. .
- **Transport of petroleum products :** distribution and delivery of fuels, lubricants, and other derivatives, using a fully equipped fleet that meets HSE (Health, Safety, and Environment) standards..
- **Personnel transport :** provision of suitable vehicles for the transfer of employees in mining, oil, and industrial companies, ensuring comfort, punctuality, and safety..
- **Logistics management and coordination :** route planning, real-time tracking, and preventive fleet maintenance to ensure service continuity and reliability.

5 MAINTENANCE

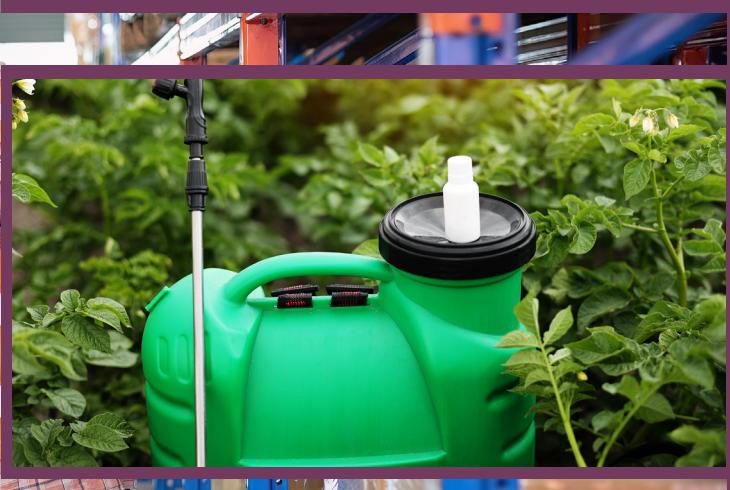

TAAE SAS has a support staff with the required engineering expertise to provide high-level maintenance services ; particularly in the following sectors:

1. Buildings
2. Equipment Maintenance
3. Mining,
4. etc...

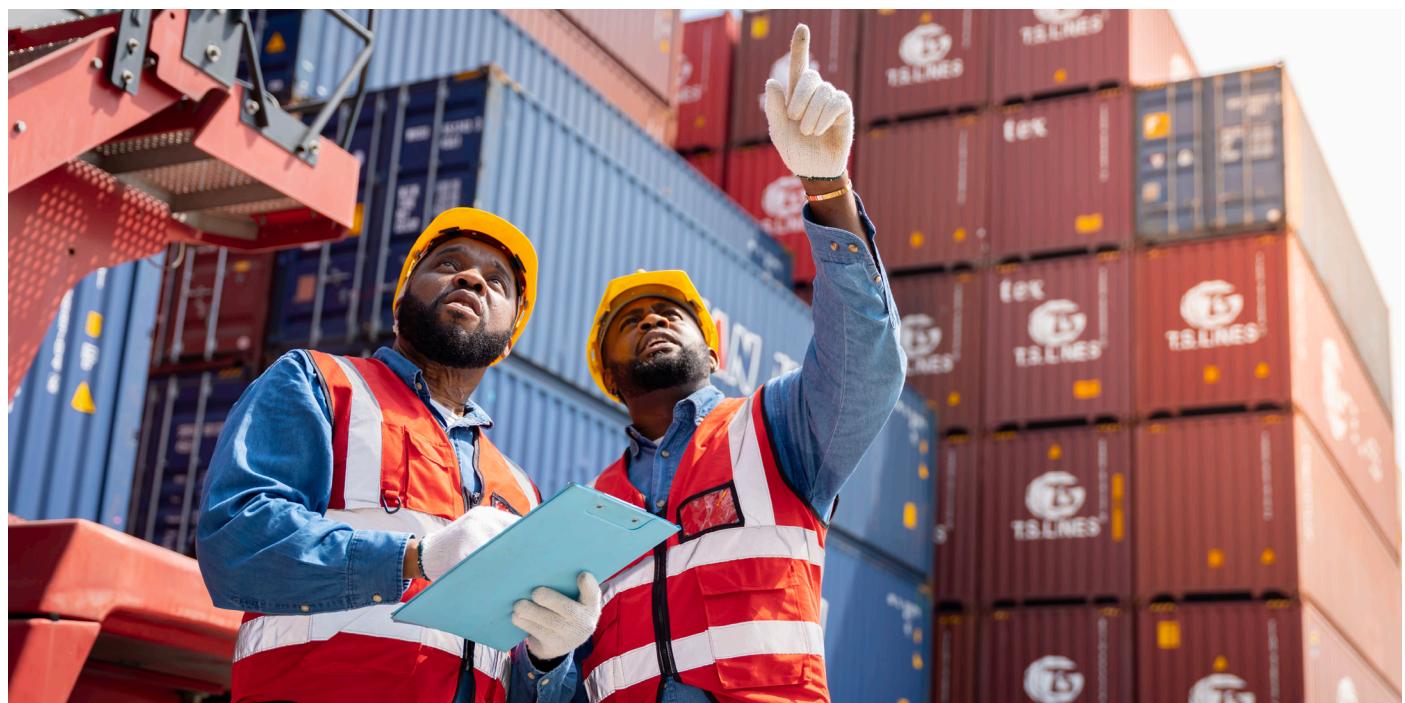

6 SUPPLY OF GOODS AND SERVICES

We are committed to providing our clients with solutions for the supply of various essential products for their operations regardless of their sector of activity.

7 CUSTOMS AGENCY SERVICES

For both imports and exports, TAAE SAS provides high-quality services to enable its clients to move goods anywhere in the D.R.C. within record time, ensuring professional customs clearance.

8

FACILITATION

Leveraging our network and extensive contacts, we connect our partners with other companies seeking to share services or procure goods. We also help build a positive image for our clients with political and administrative authorities, as well as with public opinion to facilitate access to public-private partnerships.

Our interventions :

Including initial contact, negotiation and ongoing follow-up ,we conduct each process with integrity, transparency and regulatory compliance while supporting every step of the decision-making process.

- **Public Relations :** Image management and targeted communication with decision-makers.
- **Public Affairs :** Influence strategy and institutional representation.
- **Regulatory Compliance :** Advisory services to operate within the legal framework and mitigate risks.
- **Public Contract Negotiation :** Operational support during negotiation and contract finalization phases.

Beyond the sectors mentionned above, our team is also able to provide expert guidance in the following fields :

CONSTRUCTION

TAAE SAS conducts studies depending on the sector of intervention in the following areas :

- Technical: For construction works including roads, buildings and other public infrastructure.
- Environmental and Social: Assessments to ensure sustainable and responsible practices.
- Socio-Economic: Analyses to evaluate impacts and benefits for communities and stakeholders.

In addition to construction, TAAE SAS also performs maintenance and repair works with high-level expertise.

Whether dealing with a new building or one at the end of its useful life, our approach is based on resource availability and a long-term vision for strategic planning. It is also worth noting that TAAE SAS has extensive experience in building audits and inspections supported by teams fully specialized in this field.

MINING

Based in the Haut-Katanga Province, where its headquarters are located, TAAE SAS has a comprehensive understanding of mining activities in the Greater Katanga region and across the country.

Our company supports investors interested in the mining sector with the acquisition of mining concessions and all related documentation, as well as prospecting and resource evaluation. For active mining companies, TAAE SAS provides consulting services in the mining environment, including environmental impact assessments and report preparation.
